

Law Firm Management

The McCormick Group knows law firms. As a pioneer in placing partner and associate attorneys at law firms, The McCormick Group has gained tremendous insight into the ways firms are managed and the types of candidates who best fit particular roles.

That insight helps The McCormick Group find the best people to play key roles in a wide variety of law firm management and administrative areas. The work of our team cuts across all disciplines. We work with executive and administrative staff responsible for marketing and business development, operations, facilities management, finance and accounting, human resources, practice management, professional development, and technology.

At the McCormick Group, we understand that not all firms are the same. Our experience with firms ranging from boutiques to international mega-firms enables us to recognize the specific attributes and needs of each client. So, in addition to identifying the candidates with the skills he or she needs to make a valuable contribution, we also work to find those who fit a particular firm's culture and will be adept at advancing the firm's goals.
